Features

Vandal Resistant 1 Way Security Screw With Slotted Drive

Tamper proof - Permanent Security Fixing

Requires Standard Slotted Screwdriver

Clutch Head Security Screws

Clutch Head Security Screws are available in zinc or stainless steel and self tapping, machine screw or

shoulder screw & barrel nut form.

The Clutch Head Security Screw has a unique head that requires only a standard slotted screwdriver for insertion.

This unique feature renders the Clutch Head Screw tamper proof, reducing the risk of vandals or intruders tampering

or undoing the screws.

Due to the design of the vandal resistant Clutch Head Security Screw it is suitable for higher torque applications

and is '1 way - Permanent Fixing'.

For more information and technical data regarding vandal resistant Clutch Head Security Products please call our sales team.

Note: Special fasteners can be made to order with Clutch Head Security depending on min order and requirements.
