

Component name						Hexalobular socket pan head screw, ISO 14583											
ID number						9ADJ400680P0105											
BU Level ID						-											
Designation (suggestion)						SCR-S-HLBL_ISO14583_M3X8-8.8/ZNBLC6F											
						Created: -											
						Modified: -											
						Status remarks:											
Dimensions				symbol		value		unit		RoHS:		compliant					
nominal diameter of thread, d				d		M3		-		New constr:		no restrictions					
nominal length, l				l		8		Millimeters		New constr. comments:							
height of the head, k				k		2.4		Millimeters									
hexalobular socket no.				-		10		-									
diameter of the head, dk				dk		5.6		Millimeters									
thread, thd				thd		fully threaded		-									
thread length, b				b				Millimeters									
thread runout, a_max				a		1		Millimeters									
Properties														Other identity numbers			
Mass (per 1000 items)				Mass		0,72		kg									
Material				Steel													
Property class				8.8 (ISO 898-1)													
Surface				Zinc electroplated, blue chromated, CrVI-free													
Surface thickness																	
Surface details				ISO 4042													
Hardness range																	
Reference standards				number				revision									
Corporate Standard																	
Regional Standard (SaNDY)																	
External Standard				ISO 14583				-									
Source supplier specification
